PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with 10+ years of experience delivering end-to-end solutions across fintech, healthcare, energy, and enterprise sectors. Strong front-end foundation in React, Angular, and Flutter, complemented by solid back-end experience in Java (8–17), Node.js, and RESTful/SOAP APIs. Hands-on with CI/CD pipelines (Jenkins, GitHub Actions), Docker, and cloud deployments (AWS, Azure). Proven tech lead who integrates AI/LLM tooling (Claude API, Gemini) to accelerate delivery in remote Agile environments. Recent experience emphasizes front-end architecture and design systems while maintaining full-stack ownership of features.

PROFESSIONAL EXPERIENCE

Senior Full-Stack Developer

Sep 2023 – Jul 2026

Globant · Remote · Mexico

Stack: *Flutter · React · Angular · Java 8-17 · Claude API · Gemini · Jenkins · Material 3 · WCAG 2.2*

- **React** Led a React-based PoC to evaluate next-generation front-end patterns; achieved 30% performance uplift through component reusability, memoization, and responsive layouts — establishing React as the recommended framework for future platform iterations.
- Architected and led delivery of a production-ready Flutter Design System for Employbridge's mobile app — Atomic architecture, Material 3 and WCAG 2.2 compliant — shipped 2 months ahead of schedule.
- Designed an AI orchestration pipeline (Claude + Gemini) to automate component scaffolding, accessibility audits, and code reviews; reduced per-component delivery time by ~40%.
- **Back-End** Contributed to Java 8 to 17 backend migration, modernizing services and improving platform performance by 25%; delivered digital document signing for a loan platform serving 5K+ customers.
- **DevOps** Maintained Jenkins-based CI/CD pipelines and supported build and deployment workflows across front-end and back-end services.

Senior Software Developer

Jul 2023 – Sep 2023

CASPEX · Remote · Mexico

Stack: *Angular · WCAG 2.2 · UI/UX Redesign*

- **Angular** Led a full redesign of the Cordiance platform UI with Angular, delivering a modern WCAG 2.2-compliant experience that increased user engagement by 20%.
- **Angular** Introduced a new Angular-based design system covering accessible color contrast, typography, and navigation patterns across all application modules.

Principal Software Developer

Aug 2022 – Mar 2023

Nearshore Technology · Remote

Stack: *React · Node.js · RESTful APIs · Performance Optimization*

- **React** Delivered scalable React interfaces as part of complex technical solutions, reducing bug-resolution time through proactive debugging and component-level optimization.
- **Back-End** Developed RESTful web services with Node.js, streamlining internal workflows and improving cross-team process efficiency by 25%.

Senior Software Developer

Feb 2022 – Aug 2022

Persistent Systems · Remote

Stack: *Angular · Java · Node.js · EdTech*

- **Angular** Built innovative Angular tools and interactive features for an education platform, improving UX scores by 10% and streamlining educator workflows across multiple departments.

- **Back-End** Extended scope to full-stack delivery with Java and Node.js back-end services, improving project delivery speed and strengthening cross-team collaboration.

Senior Software Developer · Tech Lead

Feb 2021 – Feb 2022

Unosquare · Remote

Stack: *JavaScript · Node.js · Team Leadership · Virtual Events*

- Directed a team of 4 engineers — career growth, sprint prioritization, and performance reviews — maintaining a high-delivery culture that consistently hit project goals.
- Developed interactive virtual event platforms on Hubb.me with vanilla JavaScript, increasing user engagement by 25% and supporting thousands of concurrent participants.
- Maintained 98% client satisfaction through proactive communication and cross-team coordination.

Software Engineer E2

Oct 2017 – Feb 2021

General Electric · Queretaro, Mexico

Stack: *Angular · Java · Node.js · Jenkins · CI/CD · AWS · WCAG 2.2*

- **Angular** Led UX and API development for GE Renewables System Data Management using Angular, improving data accessibility and reducing delivery time by 30%.
- **Angular** Architected the Orion system front-end with Angular: component architecture, WCAG 2.2 compliance, and full Agile participation (sprint planning, PR reviews).
- **Back-End** Delivered full-stack features across enterprise projects using Java and Node.js, improving platform reliability by 25% through seamless front-end/back-end integration.
- **DevOps** Managed CI/CD pipelines with Jenkins and supported cloud deployments on AWS, ensuring consistent delivery cadence across multiple enterprise projects.

Mid Software Developer

Sep 2015 – Sep 2017

Stefanini · Queretaro, Mexico

Stack: *Angular · Java · Node.js · SOAP · IBM WebSphere · Clients: Santander, Walmart*

- **Angular** Developed and deployed Angular front-end interfaces and API services for Santander Bank, enhancing system usability across 5+ internal departments.
- **Back-End** Built Java and Node.js back-end web services for Walmart Vitamedica, integrating a comprehensive medical network supporting thousands of daily transactions.
- **Back-End** Implemented SOAP services with JUnit coverage >90%, reducing post-release defects by 15%; managed IBM WebSphere configurations for deployment stability.

Junior Software Developer

Jan 2014 – Aug 2015

SOLSER SISTEMAS · Queretaro, Mexico

Stack: *Java · WebSphere · JBoss · jQuery · Clients: Libertad Financial, Santander*

- **Back-End** Designed and delivered Java web services and data models for Libertad Financial Services, achieving 100% compliance with internal security and privacy standards.
- **Back-End** Optimized WebSphere and JBoss configurations for Santander Bank, improving system performance and deployment stability by 25%.
- Reduced front-end maintenance time by 20% with modular jQuery templates; introduced process improvements that raised development productivity by 15%.

FREELANCE & PERSONAL PROJECTS

Irv. B Music Studio — AI-Powered A&R Assistant

2025 – Present

Independent / Portfolio Project · Remote

Stack: *Next.js 15 · React · TypeScript · Tailwind CSS v4 · Prisma 6 · Neon PostgreSQL · Node.js · Claude API · NextAuth.js · Vercel · GitHub Actions*

- **React** Full-stack AI-powered platform built on React/Next.js 15 (App Router) for independent musicians — combining A&R feedback, song evaluation, and audience analytics.
- **Back-End** Designed and implemented Node.js API routes, Prisma ORM schema, and Neon PostgreSQL database following production-grade patterns from scratch.
- **DevOps** Configured GitHub Actions CI/CD pipeline and Vercel deployment; manages cloud infrastructure end-to-end as a solo full-stack project.

- Integrated Claude API as AI engine for song evaluation and creative feedback, applying LLM orchestration patterns developed at Globant.

LexIA — AI Legal Document Evaluator

2024 – 2025

Independent / Portfolio Project · Remote

Stack: Flutter · Node.js · Claude API · BullMQ · Redis · PostgreSQL · Stripe · Firebase FCM

- Mobile app for AI-powered legal document evaluation using Claude API as async AI judge, returning structured rubric-based assessments.
- **Back-End** Implemented async job processing (BullMQ + Redis), Stripe payment integration, FCM push notifications, and dynamic PostgreSQL rubric tables — solo end-to-end full-stack delivery.

Personal Portfolio — irvinherrera-dev.vercel.app

2024 – Present

Independent · Remote

Stack: Angular 17+ · SSR · Vercel · GitHub Actions · CI/CD

- **Angular** Designed and deployed Angular SSR portfolio with GitHub Actions CI/CD pipeline, showcasing design system, accessibility, and AI integration work.

TECHNICAL SKILLS

React & Ecosystem: React (Hooks, Context, Memoization, Lazy Loading), Next.js 15 (App Router, SSR), TypeScript

Angular & Ecosystem: Angular 2–17+, SSR, RxJS, NgRx, Material Design, WCAG 2.2, TypeScript

Back-End: Java (8–17), Node.js, Python, Kotlin, REST APIs, SOAP, GraphQL, Prisma ORM, PostgreSQL, Redis, BullMQ

Cloud & DevOps: AWS, Azure (deployments), Docker, Jenkins, GitHub Actions, CI/CD, Vercel, Git

Front-End: Flutter, Vue, HTML5, CSS3, Tailwind CSS v4, Figma, Atomic Design, Material 3

AI / LLM Tooling: Claude API, Gemini, Prompt Engineering, AI Orchestration, LLM-assisted dev workflows

Testing: Jasmine, Karma, JUnit, Unit & Integration Testing

Languages: Spanish (native), English (professional), French (basic)

EDUCATION

B.S. in Software Engineering

2014

Universidad Tecnologica del Valle del Mezquital · Ixmiquilpan, Hidalgo · GPA 4.0
